

MARKET REPORT

A Note to our Customers:

COVID - 19 UPDATES

Onions 52 is consistently monitoring the developments of the coronavirus (COVID-19) outbreak. As an organization that has employees, partners, and customers in many states, your health and safety is our top priority. We are actively following the recommendations of the **Centers for Disease Control (CDC)**, the **World Health Organization (WHO)** and the **Food and Drug Administration (FDA)**. We will continue to operate and monitor our business as outlined in our Food Safety Program and GMPs. Safety meetings are being held and workers are being educated on a regular basis about the seriousness of this situation. We encourage all customers and partners to reach out should they have any questions or concerns.

Our goal is to continue to keep the supply chain moving as safely, quickly, efficiently as possible. In order to do this, please communicate early lead time on all upcoming orders. Transportation is already getting tight, but we are working with multiple asset-based carriers to ensure on-time deliveries for the foreseeable future.

Additional precautions we are taking include:

- A separate, sanitized waiting area for all truck drivers
- Encouraging employees to practice social distancing (to not meet in large groups) and to stay home as much as possible
- Postponing customer visits and industry tradeshows/conferences
- Abiding by all WHO, CDC, and FDA advice and protocols

Market Updates

TEXAS 1015 SWEET ONIONS

Known for their sweet, mild flavor, our Texas 1015 sweets are back! Great-quality mediums and jumbos are available for FOB or delivery. Add a few pallets (or a truckload) to your order today.

ONION MARKET and TRANSPORTATION

The market is steady, with all colors and sizes increasing in demand with the COVID-19 pandemic. We have good supplies available to continue to support our customers through these times of uncertainty. Transportation is getting tight, however, we intend to do everything we can to secure teams and book trucks as early as possible for on-time deliveries.

can't wait for the next O52 newsletter?...
