FARM TO FAMILY, WE NEVER MISS A DAY

OUR HISTORY

Starting in the early 1940s the CH Dredge Company helped a small group of Utah farmers sell their fresh produce to grocers and communities. Dredge took on all the responsibilities of packaging and selling of produce for the group of local Utah growers. In 1977, Dredge sold the business to four Utah farmers and a group of investors from Texas, the company became known as Utah Onions. In the late 80s they took on more packing and shipping responsibilities,

bringing in trade partners; Hartley's Produce and Oregon Trail Produce. In 2005, Shawn Hartley, Trent Hartley and Brad Dahl, purchased Utah Onions, Inc. from the investment group and continued to build the company. Today, the newly named Onions 52 is one of the nation's leading grower-shippers of quality yellow, red, white, organic, and sweet onions, outgrowing their borders and their old name so now, Utah Onions is Onions 52, quality onions, fifty-two weeks a year.

Fifty-two weeks a year we're growing, packaging and shipping onions so it's safe to say we know our onions. At Onions 52 we're growing five kinds of onions that will exceed your expectations when it comes to flavor, quality, value, as well as speed and consistency of delivery. From farm to family, fifty-two weeks a year, Onions 52 brings you unmatched onions with year round appeal.
